Councilman Randolph reported back communication from the Public Recreation Committee and moved same be filed. So ordered. Said communication is as follows:

Plainfield, N.J., April 12, 1913.

Chas. C. Randolph, Esq.,
Chairman, Finance Committee of Common Council,
Plainfield, N.J.

Dear Sir:

On March 14th past, at a Public Meeting held in the High School Auditorium, by Resolution, unanimously carried, the Mayor, who presided at said meeting, was requested to appoint a Committee of three (with power to add to their number) on Public Recreation and more particularly to formulate plans for the public use of our School Buildings.

Thereafter the Mayor appointed Messrs. W. Marshall, Walter H. Veysey, and E. Stuart Simons, members of said Committee, which Committee subsequently met and increased its membership to twenty-two.

On April 8th inst., the Sarger Committee held a meeting for Organization in the parlor of the Public Library, at which meeting a Resolution was offered and unanimously carried, requesting the Common Council of the City of Plainfield to appropriate the sum of \$1,500.00 to be expended upon the recommendation of the Committee but through the Board of Education.

The money if appropriated would be used to pay the Salary of a Recreation Supervisor; music for Public dancing; janitors; Printing and Posters; a moving Picture Machine and cost of renting films; and any other proper purpose within the scope of the Committee's activities.

The Committee's plans for the use of the city's School Houses include Public dancing; lectures; Public Forum; Study rooms; School Children;

APR 21 1913

Moving Picture entertainments; Gymnasium Classes for neighborhood youths and adults of both sexes and races; Public Concerts and Organ Recitals.

It may interest you to learn that a small Committee of women in co-operation with the Board of Education early this year accepted responsibility for the giving of Public Dances in the Auditorium of the Washington School on Saturday evenings, and that to date there have been held ten dances, seven lectures and one concert, all in combination, with an average attendance of over one hundred, also there have been given three Friday evening dances exclusively for Colored People at which the average attendance has been over one hundred and fifty. The music for the dances was furnished by different Young Ladies of the City.

We therefore request favorable action on this our Petition for an appropriation of \$1,500.00, to be available for use at the beginning of the City's next fiscal year.

Communication of May 14, 1913, from the Plainfield Union Water Co. was read and ordered filed. The communication is as follows:

May 14th, 1913.

James T. MacMurray, Esq.,
City Clerk, etc.,
Plainfield, N.J.

My dear Sir:

The resolution adopted by the common council on April 21st and approved by the Mayor on the same day, requesting two two-way hydrants to be erected, one at the corner of West Fifth Street two or three hundred feet from Clinton Avenue, was laid before the directors of the company at a meeting held on the 13th instant, and it was resolved to erect the hydrants at the points mentioned in the resolution.

The directors have directed me to remind you that the contract between the City of Plainfield and the water company expired on the first of May, 1912, and of course the hydrants cannot be erected now in pursuance of it. The charge for the hydrants, however, for the present will be the same as the city pays for other hydrants in the city.

Very truly, yours,
W. J. Whelan,
Secretary.

Sighting, may direct and further similar lamps as may from time to time during said period be authorized and directed by said Council.

Each and all of aforesaid lamps to be lighted and kept lighted from dusk to dawn during each and every night during said period, from October first, nineteen hundred and thirteen, to October first, nineteen hundred and fifteen, and said lamps to be maintained during lighting hours so that each and every lamp gives at no time less than eighty (80) per cent. of its rated candle-power illumination.

Also, in addition, such number not exceeding twenty-three (23) tungsten incandescent electric lamps rated at three hundred and fifty (350) candle-power, or lamps of equal illuminating power of a type approved by said municipality, to be located at such points as this Council, through the Chairman of its said Committee on Street Lighting may direct and, further, similar lamps as may from time to time, during said period, be authorized and directed by said Council, said three hundred and fifty (350) candle-power lamps also to be lighted and kept lighted from dusk to dawn during each and every night during the period aforesaid, except such of said lamps as this Council may hereafter from time to time direct to be lighted only from dusk to midnight, and said lamps to be maintained during lighting hours so that each and every lamp gives at no time less than eighty (80) per cent. of its rated candle-power illumination.

And resolved further, that upon the installation of tungsten incandescent three hundred and fifty (350) candle-power lamps aforesaid at or near the present location of arc lamps now in use in said City of Plainfield, the said arc lamps be discontinued and removed.

Adopted by the Common Council Aug. 4, 1913.

Regular
Meeting.

Regular meeting of the Common Council held this evening, all members present except Councilmen Gholz, Reville, Van Herwerden and Wilson.

Minutes of adjourned regular meeting held Sept. 15th were read and approved.

Councilmen Gholz and Wilson came in while minutes were being read.

Rules
Suspended.

Councilman Mygatt moved rules be suspended to receive report dated Sept. 24, 1913, of Elliot J. Barrows, Daniel J. Courain and Frederic A. Andrews, Commissioners appointed to make assessments for benefits and damages for the laying out and opening of Kensington Avenue. So ordered.

Report of Commrs.
for opening of
Kensington
Avenue received.

The President asked the clerk if he had received proofs of publication of the filing of the report of said Commissioners in the matter of the laying out and opening of Kensington Avenue. The clerk reported that he had received them. Councilman Mygatt moved such proofs of publication be placed on file. So ordered.

OCT 6 - 1913

The President stated that the first business would be to receive report of Elliot J. Barrows, Daniel J. Courain and Frederic H. Andrews, Commissioners appointed to make assessments for benefits and damages for the laying out and opening of Kensington Avenue, as advertised, and the same was received and read.

The President asked the clerk if any objections to said report had been filed in his office, the clerk reporting in the negative.

The President stated that opportunity is now offered to all persons interested to be heard in reference to said report and assessments. After full opportunity had been given, no one appearing, the President declared the hearing closed.

Councilman Mygatt offered the following resolution which was adopted upon a call of the roll all present voting aye:

Whereas, The Common Council hath ascertained and determined, and doth hereby ascertain and determine; that the whole amount of damages and expensels for the laying out and opening of Kensington Avenue from the southerly side line of Prospect Avenue to the northeasterly side line of Park Avenue, pursuant to the

whereas, on August fourth, Nineteen Hundred
and thirteen, this Council adopted a certain

OCT 6 - 1913

resolution in the following words and figures:

"Resolved, that pursuant to the terms of the written agreement made and entered into by and between the Plainfield Gas and Electric Light Company and The Inhabitants of the City of Plainfield, dated November twenty-eighth, Eighteen Hundred ninety-eight, the said The Inhabitants of the City of Plainfield, through its Common Council, doth hereby call upon the said The Plainfield Gas and Electric Light Company, its successors and assigns, to light the streets and public places of said City for a period to begin October first, nineteen hundred and thirteen, and to end October first, nineteen hundred and fifteen, with thirty-two (32) candle-power tungsten incandescent electric lamps, or lamps of equal illuminating power of a type approved by the Municipality, located and maintained at all terminals where twenty-five (25) candle power carbon incandescent lamps are now installed (excepting at such of said terminals as this Council, through the Chairman of its Street Lighting Committee, may direct to be supplied with lamps of greater than thirty-two (32) candle-power, or abandoned entirely), and at such other places or terminals as may from time to time, during the period aforesaid, be designated by this Council.

Also, in addition, with such number not exceeding ten of tungsten incandescent electric lamps rated at sixty (60) candle-power, or lamps of equal illuminating power, of a type approved by the Municipality, to be located at such points as this Council, through the Chairman of its said Committee on Street Lighting, may direct and further similar lamps as may from time to time during said period be authorized and directed by said Council.

Each and all of aforesaid lamps to be lighted and kept lighted from dusk to dawn during each and every night during said period, from October first, nineteen

hundred and thirteen, to October first, nineteen hundred and fifteen, and said lamps to be maintained during lighting hours so that each and every lamp gives at no time less than eighty (80) per cent. of its rated candle-power illumination.

Also, in addition, such number not exceeding twenty-three (23) tungsten incandescent electric lamps rated at three hundred and fifty (350) candle power, or lamps of equal illuminating power of a type approved by said municipality, to be located at such points as this Council, through the Chairman of its said Committee on Street Lighting, may direct and, further, similar lamps as may from time to time, during said period be authorized and directed by said Council, said three hundred and fifty (350) candle-power lamps also to be lighted and kept lighted from dusk to dawn during each and every night during the period aforesaid, except such of said lamps as this Council may hereafter from time to time direct to be lighted only from dusk to midnight, and said lamps to be maintained during lighting hours so that each and every lamp gives at no time less than eighty (80) per cent. of its rated candle-power illumination.

And resolved further, that upon the installation of tungsten incandescent three hundred and fifty (350) candle-power lamps aforesaid at or near the present location of arc lamps now in use in said City of Plainfield, the said arc lamps be discontinued and removed."

And whereas, the Public Service Electric Company, the same being the successors assigns or lessees of the Plainfield Gas and Electric Light Company and operating in the City of Plainfield under the franchise granted by said City to the said last mentioned company, was duly served with a copy of said resolution and has, in response

OCT 6 - 1913

thereby, stated that the time required to satisfactorily install and furnish complete the entire new street lighting service called for by said resolution of August fourth, nineteen hundred and thirteen, will be five months, although a large part thereof may be completed in about three months, and

whereas, further, the said Public Service Electric Company has filed with the Board of Public Utility Commissioners of the State of New Jersey, a schedule of standard rates or prices for municipal street lighting in that portion of the State of New Jersey which includes the City of Plainfield, and which said schedule of rates or prices has been approved by said Board and are not in excess of the rates provided in the aforesaid contract between the Plainfield Gas and Electric Light Company and the inhabitants of the City of Plainfield, and which said schedule of rates is as follows:

"Municipal Street Incandescent Lighting Rates."

For the number of lamps furnished up to and including fifty (50) lamps, the rate or rates shown in the first step of the following table;

For the excess number of lamps furnished over fifty (50) lamps, up to and including one hundred (100) lamps, the rate or rates shown in the second step of said table;

For the excess number of lamps furnished over one hundred (100) lamps, up to and including two hundred (200) lamps, the rate or rates shown in the third step of said table;

For the excess number of lamps furnished over two hundred (200) lamps, the rate or rates shown in the fourth step of said table.

The table showing the rates for incandescent service above referred to is as follows, viz.:

OCT 6 - 1913

	1 st Step 50 lamps.	2 nd Step 51 to 100 lamps.	3 rd Step 101 to 200 lamps.	4 th Step over 200 lamps.
25 Candle Power	\$18.00	\$16.65	\$15.30	\$13.95
32 Candle Power	20.00	18.50	17.00	15.50
40 Candle Power	22.50	20.81	19.12	17.44
60 Candle Power	26.50	24.51	22.52	20.54
80 Candle Power	30.00	27.75	25.50	23.25
100 Candle Power	32.75	30.29	27.83	25.37
200 Candle Power	55.00	50.88	46.75	42.63
350 Candle Power	85.00	78.63	72.25	65.88

where the incandescent service furnished a municipality consists of lamps of two or more of the candle-powers shown in the schedule, the average rate charged for lamps of each candle-power shall be the average rate obtained for an installation of lamps of that candle-power equivalent in number to the total number of lamps furnished."

Now, Therefore, Be It Resolved, that the aforesaid resolution adopted by the Council August fourth, nineteen hundred thirteen, be and is hereby modified and amended to read as follows:

Resolved, that pursuant to the terms of the written agreement made and entered into by and between the Plainfield Gas and Electric Light Company and the Inhabitants of the City of Plainfield, dated November twenty-eighth, Eighteen hundred ninety-eight, the said The Inhabitants of the City of Plainfield, through its Common Council, doth hereby call upon the said The Plainfield Gas and Electric Light Company, its successors and assigns, to light the streets and public places of said City for a period to begin as soon hereafter as said lamps can be installed and, in any event, not later than March fifteenth nineteen hundred and fourteen, and to end March fifteenth, nineteen hundred and sixteen, with thirty-two (32) candle-power tungsten incandescent electric lamps

OCT 6 - 1913

or lamps of equal illuminating power of a type approved by the municipality, located and maintained at all terminals where twenty-five (25) candle-power carbon incandescent lamps are now installed (excepting at such of said terminals as this Council, through the chairman of its Street Lighting Committee, may direct to be supplied with lamps of greater than thirty-two (32) candle-power, or abandoned entirely), and at such other places or terminals as may from time to time, during the period aforesaid, be designated by this Council.

Also, in addition, with such number not exceeding ten of tungsten incandescent electric lamps rated at sixty (60) candle-power, or lamps of equal illuminating power, of a type approved by the municipality, to be located at such points as this Council, through the chairman of its said Committee on Street Lighting, may direct and further similar lamps as may from time to time during said period be authorized and directed by said Council.

Each and all of aforesaid lamps to be lighted and kept lighted from dusk to dawn during each and every night during said period, beginning as soon hereafter as said lamps can be installed and, in any event, not later than March fifteenth, nineteen hundred and fourteen, and to end March fifteenth, nineteen hundred and fifteen, and said lamps to be maintained during lighting hours so that each and every lamp gives at no time less than eighty (80) per cent. of its rated candle-power illumination.

Also, in addition, such number not exceeding twenty-three (23) tungsten incandescent electric lamps rated at three hundred and fifty (350) candle-power, or lamps of equal illuminating power of a type approved by said municipality, to be located at such points as this Council, through the chairman of its said Committee on Street Lighting, may direct and, further, similar lamps as may from time to time, during said period be authorized and directed

OCT 6 - 1913

by said Council, said three hundred and fifty (350) candle-power lamps also to be lighted and kept lighted from dusk to dawn during each and every night during the period aforesaid, except such of said lamps as this Council may hereafter from time to time direct to be lighted only from dusk to midnight, and said lamps to be maintained during lighting hours so that each and every lamp gives at no time less than eighty (80) per cent. of its rated candle-power illumination.

And resolved further, that upon the installation of tungsten incandescent three hundred and fifty (350) candle-power lamps aforesaid at or near the present location of arc lamps now in use in said City of Plainfield, the said arc lamps be discontinued and removed.

And resolved further that the Inhabitants of the City of Plainfield hereby accept and agree to pay for said new service when installed as aforesaid, the said rates and prices for such lights specified in the aforesaid schedule filed with and approved by the Board of Public Utility Commissioners less a discount of one per cent. to be allowed from said schedule for the lamps in this resolution mentioned, being discount at the same rate allowed from said schedule under new contracts for a two year period.

Councilman Blatz offered the following resolution which was adopted upon a call of the roll all present voting age:

Whereas, David Hand and Annie Hand, his wife, did on the eleventh day of May, nineteen hundred and six grant to the Inhabitants of the City of Plainfield, a consent and maintain a sewer under or above ground, within the lines of a ten foot strip of land, the centre line of which begins at a point in the centre of Second Avenue being the centre of a proposed manhole; thence South thirty-two degrees thirty minutes west ($S 32^{\circ} 30' W$) two hundred sixty-three and three-tenths feet (263.3) to the centre of a manhole as proposed; thence South forty degrees twenty-one minutes East ($S 40^{\circ} 21' E$) three hundred forty-three (343) feet to the centre of a proposed manhole in Berkeley Avenue; which consent was recorded in the Union County Register's Office September 13th, 1906, in Book 472 of Deeds on pages 326 etc.; and

Whereas, in the judgment of the Mayor and Common Council, the further use of the above described strip of land for sewer or any other public purpose is no longer desirable to the City of Plainfield,

Resolved, that in pursuance of an act of the Legislature of the State of New Jersey entitled "An Act to enable Cities to sell, exchange, lease and convey public lands which are not used, needed or desirable for public purposes", approved March 28th, 1904, the Inhabitants of the City of Plainfield, in consideration of one dollar and other good and valuable consideration, cause to be executed to Ernest S. Joint Sewer Agreement
Plainfield, North Plainfield
& Amellen See Pages 242 &c

O.R. NOV 3 - 1913

Agreement, made this Third day of November, One thousand nine hundred and thirteen, Between the Inhabitants of the City of Plainfield, in the County of Union and State of New Jersey, party of the first part, the Borough of North Plainfield, in the County of Somerset and State of New Jersey, party of the second part, and the Borough of Denville, in the County of Middlesex and State of New Jersey, party of the third part, each of said parties being a municipality of the State of New Jersey.

Whereas, pursuant to the terms and provisions of an act of the Legislature of the State of New Jersey entitled "An Act to authorize any two or more municipalities in this State to jointly provide, maintain and operate a trunk or outlet sewers and sewage disposal plant or plants or a system of sewerage, and to otherwise act jointly concerning the collection, removal or disposal of sewage and make contracts in relation thereto," approved April 8, 1908, and the acts amendatory thereof and supplemental thereto, and of all other acts of the said Legislature, relating to the matters included herein each of the parties hereto has determined to unite with the other parties hereto upon the terms and conditions hereinafter set forth; (1) to jointly provide, maintain and operate a system of sewerage or conducting the sewage from said municipalities from the points within said municipalities hereinafter designated to a point on the Darling Farm at or near the intersection of Lyons Brook and Round Brook in the Township of Piscataway, now in the Borough of Middlesex and to jointly construct, maintain and operate upon the said Darling Farm a plant, works and station, with the appliances and appurtenances necessary for the treatment, rendering and disposal of the said sewage; (2) to construct, maintain and operate the said system of sewerage herein described for the joint benefit of the parties hereto in, such manner as will render the most efficient service to said parties and to each of them; and to that end to keep the said system of sewerage in good repair and effective operation, and to make all necessary alterations, additions and enlargements thereto and therein as the needs of the said parties, and each of them, may from time to time require;

Now therefore, in consideration of the premises, and of the mutual covenants and agreements herein contained, each of the parties hereto covenants and agrees with the other parties hereto as follows:

First. That it has agreed, and does hereby agree, with the other parties hereto to jointly with them provide, maintain and operate a system of conveying or conducting the sewage from said municipalities from the points within said municipalities hereinafter designated to a point on the Darling Farm at or near the intersection of Green Brook and Round Brook, in the Township of Piscataway, now in the Borough of Middlesex, and to jointly construct, maintain and operate upon the said Darling Farm a plant, works and station, with the appliances and appurtenances necessary for the treatment, regulating and disposal of the said sewage. The sewage from the City of Plainfield is to be conducted from a point in the City of Plainfield about nine hundred and fifty (950) feet westward from the intersection of Green Brook and Rock Avenue. The sewage from the Borough of North Plainfield is to be conducted from a point in the Borough of North Plainfield at or near the intersection of Rock Avenue and Green Brook road. The sewage from the Borough of Dunellen is to be conducted from a point in the Borough of Dunellen at or near the intersection of Round Brook road and Warrenville road.

The said system of conveying or conveying said sewage shall consist of about two (42) inch trunk sewer, beginning at a point at or near the intersection of Rock Avenue and Green Brook road, in the said Borough of North Plainfield, and extending thence in a westerly direction through the Township of North Plainfield across Rock Avenue and Green Brook road and private lands to a point at or near Jefferson Avenue at the foot of the Watchung Mountains in the said Township of North Plainfield; thence in a southwesterly direction through private lands along the foot of said mountains to a point at or near the easterly line of the Cramer Farm

about eight hundred and forty (840) feet more to the southward of Green Brook road, in the said Township of North Plainfield, and thence in a southerly direction through private lands to a point at or near the intersection of the westerly line of the Cramer Farm and Green Brook road in the said Township of North Plainfield; two twenty (20) inch inverted siphons extending from the last named point to Green Brook and thence to, under and across Green Brook to the said disposal works, plant or station on the said Darling Farm at or near the intersection of Bound Brook and Green Brook in the said Township of Piscataway, now in the Borough of Middlesex; two twenty (20) inch inverted siphons extending from the beginning point of the said forty-two (42) inch trunk sewer in the said Borough of North Plainfield along the north-easterly side of Rock Avenue under and across Green Brook to a point in the City of Plainfield about nine hundred and fifty (950) feet southerly from the intersection of said Green Brook and Rock Avenue; and an eight (8) inch force main extending from the said forty-two (42) inch trunk sewer at a point about two thousand (2000) feet northeast of the Warrenville Road in the said Township of North Plainfield, thence across private lands and the said Green Brook road to, under and across Green Brook, thence across private lands and through Schwartz Avenue in the said Borough of Dunellen to a point at or near the intersection of Bound Brook road and Warrenville road in the said Borough of Dunellen.

The said forty-two inch trunk sewer shall be of reinforced concrete except where it is necessary to rise cast iron and shall be built with such culverts, siphons, manholes and other fittings, appurtenances and appurtenances as may be found necessary for its proper construction, maintenance and operation.

All of the said twenty (20) inch siphons shall be of cast iron.

The said eight (8) inch force main shall be of cast iron.

The said plant, works or station for the treatment, rendering and disposal of sewage shall

consist of a preliminary settling tank in two units, a sludge-drying bed, a sprinkling filter in two units, with a double dosing tank, a final settling tank in two units with a small sludge pumping station and a laboratory.

The said preliminary settling tank shall be constructed in two units of the Ambhoff type.

Each of these units shall be approximately five thousand (5000) square feet in surface area and about twenty-one (21) feet deep, and shall be divided into three double compartments. Each of said units shall be of ample capacity to provide for an average daily flow of two (2) million gallons of sewage in the upper or sedimentation compartment. The sludge compartment of the said tank shall have a combined total capacity for at least one year's storage of sludge, and shall be constructed entirely of reinforced concrete banked around the outside with earth, and shall be provided with a system of cast iron pipes for the removal of sludge.

The said sludge-drying bed shall be adjacent to the preliminary tanks and shall be approximately eighty-four (84) feet by one hundred and sixty (60) feet in size and surrounded with a low concrete wall. The said bed shall consist of about thirteen (13) inches in average depth of graded sand and gravel underlain by a system of tile drains.

The said sprinkling filter shall have a total area of about one (1) and seventy-five (75) one hundredths acres, with an average depth of filtering material of about six (6) feet. The said filter shall be surrounded with earth embankment paved on the inside with concrete and shall have a concrete and tile floor. Through the center of each of the two units there shall be a reinforced concrete pipe gallery containing a main distributing pipe and a main collecting channel. The distributing system shall be of cast iron pipe with sprinkler nozzles of proper spacing and size to provide for evenly distributing sewage over the surface of the stone. Provision shall be made for keeping down the bed by means of a double dosing tank and siphons.

The said final settling tank shall have two units, each of which shall have a total surface

area of approximately twelve hundred (1200) square feet and shall be about seventeen (17) feet deep and similar in construction to the above mentioned preliminary settling tank. Adjacent to these tanks there shall be a pump house, similar in size and construction to the laboratory building hereinafter mentioned, containing a centrifugal pump driven by an electric motor, with piping connections to permit the pumping of sludge from the final settling tank into the inlet of the preliminary settling tank. There shall also be an effluent sewer consisting of a double inverted siphon of twenty (20) inch cast iron pipe, running from said disposal plant under Green Brook and Bound Brook to the south bank of Bound Brook, and a forty-two (42) inch reinforced concrete sewer running from said last mentioned point into Green Brook at a point about four hundred and fifty (450) feet below Green Brook road. The said double inverted siphons and said concrete sewer shall be built with such gate chambers, culverts, manholes and other fittings, appliances and appurtenances as may be found necessary to their proper construction, maintenance and operation. In connection with the disposal plant there shall be an adequately equipped laboratory. The laboratory building shall be about twenty-two (22) feet by twenty-five (25) feet outside dimensions and built of brick with concrete foundations and slate roof. The above system of sewerage shall in all respects be constructed throughout in accordance with the plans and specifications prepared and executed in triplicate by George W. Miller, Esq., bearing date August 11, 1912, one copy of which is now on file in the office of the Clerk of the Inhabitants of the City of Plainfield, another copy of which is now on file in the office of the Clerk of the said Borough of North Plainfield, and the other copy of which is now on file in the office of the Clerk of the Borough of Princeton.

Second That it has agreed and does hereby agree with the other parties hereto to jointly construct, maintain and operate the said system of sewerage.

herein described for the joint benefit of the said Inhabitants of the City of Plainfield, the said Borough of North Plainfield and the said Borough of Dumellen, in such manner as will render the most efficient service to the said municipalities and to each of them, and to that end to keep the said system of sewerage in good repair and effective operation, and to make all necessary alterations, additions and enlargements thereto and therein as the needs of the said municipalities, and each of them, may from time to time require.

Third. That the percentage of the capacity of such system of sewerage and sewage disposal plant, to the use of which each of the said municipalities shall be entitled shall be as follows: Of the said two (2) twenty (20) inch inverted siphons extending from the beginning point of the aforesaid forty-two (42) inch trunk sewer in the said Borough of North Plainfield along the northeasterly side of Rock Avenue under and across Green Brook to a point in the City of Plainfield about nine hundred and fifty (950) feet southerly from the intersection of said Green Brook and Rock Avenue as aforesaid, the said Inhabitants of the City of Plainfield shall be entitled to the use of seventy-five (75) per cent., and the said Borough of North Plainfield shall be entitled to the use of twenty-five (25) per cent of the capacity thereof. Inasmuch as it is not contemplated that the said Borough of North Plainfield will have use for its said percentage of capacity of the last mentioned two (2) twenty (20) inch inverted siphons, such Borough shall have the right from time to time to rent its said percentage of capacity thereof to any corporations, individuals or municipalities that may require the use of said two (2) twenty (20) inch siphons, or any portion thereof, under any contract or contracts, which may be entered into by the Joint Meeting provided for by said Act with such corporations, individuals or municipalities, before the Inhabitants of the City of Plainfield shall have the right to rent any portion of its said percentage of capacity of the said two (2)

twenty (20) inch inverted siphon. The said Borough of Duxellen shall be entitled to the full capacity of the eight (8) inch force main above mentioned. Of the remaining portions of the said system of sewerage and sewage disposal plant, and of every part thereof, the said Inhabitants of the City of Plainfield shall be entitled to the use of fifty-eight (58) per cent., the said Borough of North Plainfield twenty-five (25) per cent., and the said Borough of Duxellen seven (7) per cent. of the capacity thereof.

And in case it shall happen that any of the said municipalities shall require for its own needs a greater percentage of capacity of the said system of sewerage and sewage disposal plant, or of any part thereof, than is herein provided, it shall, upon obtaining the consent of the said Joint District, so to do, have the privilege of renting from either or both of the said other municipalities any portion of the surplus capacity of said other municipality or municipalities for such period of time and upon such terms and conditions as may be agreed upon.

Fourth. That the percentage of the total cost, expenses and other liabilities incurred in connection with or resulting from the construction, maintenance or operation of any and all of the said works and improvements to be paid by each of such municipalities shall be as follows: The said Inhabitants of the City of Plainfield shall pay the total cost, expenses and other liabilities incurred in connection with or resulting from the construction, maintenance and operation of any and all connections with the said works and improvements authorized by it. The said Borough of North Plainfield shall pay the total cost, expenses and other liabilities incurred in connection with or resulting from the construction, maintenance and operation of any and all connections with the said works and improvements authorized by it. The said Borough of Duxellen shall pay the total cost, expenses and other liabilities incurred in connection with or resulting from the construction, maintenance and operation of any and all connections with the said works and improvements authorized by it, and also the total cost, expenses

and other liabilities incurred in connection with or resulting from the operation of the said eight (8) inch force main.

Fifth. Except as hereinbefore is expressly provided, of the total cost, expenses and other liabilities incurred in connection with or resulting from the construction of the said works and improvements, and all damages, if any, resulting from the maintenance of such works and improvements, the said Inhabitants of the City of Plainfield shall pay and discharge sixty-eight (68) per cent, the said Borough of North Plainfield twenty-five (25) per cent., and the said Borough of Dunellen seven (7) per cent. thereof. Except as hereinbefore is expressly provided, the total cost and expenses incurred in connection with or resulting from the maintenance, repair, cleaning, supervision and operation of any and all of the said works and improvements shall be divided between and paid by the three said municipalities in proportion to the amount of the sewage delivered into said works and improvements from each of the said municipalities respectively, and the cost, expenses and other liabilities, incurred in connection with or resulting from any additions or enlargements of the said works and improvements which may hereafter be made shall be divided between and paid by the said municipalities in proportion to the requirements of the said respective municipalities in excess of the capacity to which each of said municipalities is entitled.

Sixth. That the sewage from each municipality shall be measured by an approved type of recording instrument, installed, controlled, maintained and operated by the said Joint Meeting.

Seventh. That each of the said municipalities may from time to time at its own cost and expense appoint one or more inspectors who shall at all times be given full opportunity

to inspect the work, construction of the works and improvements hereby authorized, and of any and all materials used therein, and also the location of the said works and improvements during and after the completion thereof.

Sixth. That after the completion of the said works and improvements, and upon the written consent of the engineer employed by the said Joint Meeting, one or more of the said municipalities may commence to use the works and improvements hereby authorized in advance of any other of said municipalities, provided, however, that the said municipality or municipalities so using the same shall assume and bear the whole cost and expenses incurred in connection with or resulting from the maintenance and operation of the said works and improvements during the period that it or they so make partial or exclusive use thereof.

Seventh. That all collecting sewers, including house connections, constructed within each municipality, and connected with said joint sewerage system, works or improvements, shall be water tight to avoid as far as is practicable, the infiltration of the ground or surface water into said sewers. None of the said municipalities shall use, nor permit its property owners, or any of them, to use the collecting sewers constructed within its limits, or any of them, for any purpose other than that of sanitary sewers.

Eighth. That in order to accomplish the purposes of this contract, and of the laws of New Jersey, in pursuance of which it is made, it will do or cause to be done any and all things which it may by law be authorized to do, and which will advance or tend toward the accomplishment of the said purposes, or any of them, without delay.

Ninth. That in the event of any disagreement between the inhabitants of the City of Plainfield, the Borough of North Plainfield and the Borough of Denville concerning the accomplishment

ment of any of the purposes hereof, the matter or matters in dispute, shall be referred to three (3) arbitrators, one of whom shall be chosen by each of the said municipalities through its governing bodies. In case two of such municipalities each choose an arbitrator and the third of such municipalities should neglect or refuse so to do for the period of twenty days after being requested thereunto by either of the said other municipalities, the two arbitrators so chosen shall then choose and designate in a writing to be filed with the clerk of each of such municipalities a third arbitrator who shall thereupon have the same powers and perform the same duties as if he had been chosen by the municipality so neglecting or refusing to choose an arbitrator. In case the arbitrators so chosen shall not reach a unanimous decision as to the matters referred to them, the Chancellor of the State of New Jersey shall be requested to appoint two other arbitrators to meet with the three already appointed; a decision by a majority of the board of arbitrators so appointed shall be binding upon the said municipalities. In case the Chancellor shall fail to appoint such additional arbitrators within ten days from the date of such request, a majority of the arbitrators already chosen as hereinbefore provided shall select the said two additional arbitrators, and a decision by a majority of the board of arbitrators so appointed shall be binding upon the said municipalities and each of them.

Twelfth This agreement is made and executed in triplicate on behalf of the Inhabitants of the City of Plainfield, Party of the first part hereto, by its Mayor and City Clerk, pursuant to an ordinance entitled "An Ordinance authorizing the Inhabitants of the City of Plainfield to unite with the Borough of North Plainfield and the Borough of Danmellen to jointly provide, construct, maintain and operate a system of conveying and conducting the sewage from said municipalities."

from certain points within said municipalities to a point near the intersection of Green Brook and Round Brook in the Township of Piscataway; to jointly construct, maintain and operate such plants, works and stations as may be necessary for the treatment, rendering and disposal of said sewage, to fix and prescribe the percentage of the capacity of the said works or improvements to which each of said municipalities shall be entitled; to provide for the apportionment of the costs, expenses and other liabilities of the construction, maintenance and operation of the said works or improvements, and to authorize the making and execution of a contract, providing therefor, which said ordinance was duly passed by its Common Council on the Fifth day of May 1913, and approved by its Mayor on the Fifth day of May, 1913.

Thirteenth. This agreement is made and executed in triplicate on behalf of the Borough of North Plainfield, party of the second part hereto, by its Mayor and Borough Clerk, pursuant to an ordinance entitled "An ordinance authorizing the Borough of North Plainfield to unite with the Borough of Lincroft and the Inhabitants of the City of Plainfield to jointly provide, construct, maintain and operate a system of conveying and conducting the sewage from said municipalities from certain points within said municipalities to a point near the intersection of Green Brook and Round Brook in the Township of Piscataway; to jointly construct, maintain and operate such plants, works and stations as may be necessary for the treatment, rendering and disposal of said sewage; to fix and prescribe the percentage of the capacity of the said works or improvements to which each of said municipalities shall be entitled; to provide for the apportionment of the costs, expenses and other liabilities of the construction, maintenance and operation of the said works or improvements, and to authorize the making and execution of a contract providing therefor" which said ordinance was duly passed by its ~~own~~ Common Council on the Third day of October 1913, and approved by its Mayor on the Fourth day of October, 1913.

Fourteenth. This agreement is made and executed in triplicate on behalf of the Borough of Dunellen, party of the third part hereto, by its Mayor and Borough Clerk, pursuant to the provisions of an ordinance entitled "An ordinance authorizing the Borough of Dunellen to unite with the Borough of North Plainfield and the Inhabitants of the City of Plainfield to jointly provide, construct, maintain and operate a system of conveying and conducting the sewage from said municipalities from certain points within said municipalities to a point near the intersection of Green Brook and Bound Brook in the Township of Piscataway; to jointly construct, maintain and operate such plants, works and stations as may be necessary for the treatment, rendering and disposal of said sewage; to fix and prescribe the percentage of the capacity of the said works or improvements to which each of said municipalities shall be entitled; to provide for the apportionment of the costs, expenses and other liabilities of the construction, maintenance and operation of the said works or improvements, and to authorize the making and execution of a contract providing therefor", which said ordinance was duly passed by its Borough Council on the sixth day of October, 1913, and approved by its Mayor on the seventh day of October 1913.

In Witness Whereof, the Mayor and City Clerk of the said Inhabitants of the City of Plainfield, party of the first part, have signed this agreement and caused the corporate seal of the said municipality to be hereto affixed and attested; the Mayor and Borough Clerk of the said Borough of North Plainfield, party of the second part, have signed this agreement and caused the corporate seal of the said municipality to be hereto affixed and attested; and the Mayor and Borough Clerk of the said Borough of Dunellen, party of the third part, have signed this agreement and caused the corporate seal of the said municipality to be hereto affixed

NOV 10 1913

The Corporation Counsel submitted, in accordance with resolution adopted Nov. 3^d, form of contract for motor pumping engine.

Councilman Collins moved same be received and read. So ordered. After the reading of the proposed contract, Councilman Inders offered the following resolution which was adopted upon a call of the roll all present voting aye:

Whereas, pursuant to resolution to advertise for bids or proposals to furnish the City of Plainfield one four-cylinder double compression motor pumping fire engine and hose carrier and equipment, adopted July 7, 1913, bids or proposals were submitted August 4, 1913, as follows:

Nott Fire Engine Co.	\$7,850.00
Robinson Fire Apparatus Mfg. Co.	7,950.00
International Motor Co.	7,000.00
The Seagrave Company	8,975.00
American-Sa France Fire Engine Co.	7,500.00

And whereas, subsequently the Nott Fire Engine Company, the American-Sa France Fire Engine Company and the International Motor Company, the three lowest bidders, were requested to submit one of the engines specified in their respective bids, to test in the City of Plainfield on the 22^d day of October, 1913.

And whereas, said American-Sa France Fire Engine Co. failed to submit any engine to such test, while the engine submitted thereto by the International Motor Company failed to comply with the specifications required by said resolution, and said International Motor Company asked leave to withdraw their bid, and the engine submitted to said test by the Nott Fire Engine Company gave a satisfactory demonstration:

Adjourned regular meeting of the
Common Council held this evening. all
members present except Councilman Van
Steverden.

Rules
Suspended.

Councilman Blatz moved rules be sus-
pended for the purpose of treating with
property owners affected by the proposed
widening of Madison Avenue under an
ordinance entitled "An Ordinance
to widen Madison Avenue from the south-
easterly side line of West Front Street to
the northwesterly line of the right of way
of the Butler Railroad Company of New Jersey",
approved Dec. 22, 1913, as advertised.
So ordered.

The clerk presented affidavits of service
of notice on property owners affected by the
said proposed widening of said Madison
Avenue. The said affidavits were ac-
companied by a copy of the notice served
upon the affected parties and with affi-
davits of publication of notice that the
Council had fixed Monday, March 16th,

Treat with
property owners.
Proposed widen-
ing of Madison
Ave.

MAY 11 1914

8 P.M. to treat with the property owners affected, from both the official papers, all of which were on motion duly made and carried, ordered filed.

Councilman Blatz moved that opportunity be now given all persons interested in the proposed widening of Madison Avenue, pursuant to ordinance approved Dec. 22, 1913, to be heard, and that the Common Council proceed to treat with such owners as appear pursuant to notice served. So ordered.

The President stated that opportunity is now offered to all persons interested to be heard, and that the Common Council would now treat with owners of property on Madison Avenue for the lands and real estate with the appurtenances necessary to be taken for the widening of same as provided by said ordinance.

Wm. Newcomb Esq. appeared representing the trustees of the estate of Samuel Dreier, protesting against the proposed widening.

Mr. Charles Singer appeared repre-

senting one-fifth interest in the water estate, favoring the proposed widening.

J. Henry Crane Esq. appeared for Walley & Goodenough, stating they were ready to meet the City on any fair basis, if one could be reached; that they would have to change their office building, that the figures submitted to the Council before were something like \$485 to make the change. But that he was not prepared to make any definite offer.

Mr. N.B. Duvalley appeared for Wm. M. Mills in favor of the widening.

Robert Newton Crane Esq., appeared for Mary Ginsberg and Sophia Shager. Was not prepared to submit offer.

Mr. Henry Demott appeared for Jane B. Demott. Upon being asked by President Clay what he considered the value of the whole property, he replied, \$200 per front foot. But he made no definite offer as to the land to be taken.

A. B. Bulmer appeared for the Public Service Electric Co. and made the following

MAR 10 1914

Statement: we desire to say that we agree to donate to the City the width necessary for this widening if the City will agree to levy no assessments against the Company for the improvement.

After ample opportunity had been given, no one else appearing, the president declared the hearing closed.

Councilman Blatz moved Council return to regular order of business. So ordered.

Minutes of adjourned regular meeting of the Common Council held March 9th were read and approved.

Minutes of adjourned regular meeting of the Common Council held March 12th were read and approved.

Councilman Claybrook moved Council take a recess for five minutes. So ordered.

New York, March 5th, 1914.

Honorable Singleton Calhoun,
Chairman, Finance Committee,
Plainfield, New Jersey.

Dear Sir:-

Yearly Proposal.

Pursuant to your request, we re-
spectfully submit the following proposal for
conducting an audit of the books and accounts
of the City of Plainfield for the year 1914:

Specifications:

We will verify the assessments
and levies of taxes by comparison of the tax
duplicates with the tax maps, and with the
certified valuations and assessments of the
County Board of Taxation.

We will verify the levies of taxes
for the State and County purposes, for local
schools, and for City purposes.

We will verify all special assess-
ments by comparison with the proper author-
ization.

We will verify all collections of
taxes and assessments during the period
and trace the disbursements of the Receiver
of Taxes to the proper officers authorized by
law to receive such monies.

We will verify the miscellaneous
revenues of the City from all sources other than
taxes in the following manner:

As to proper amount recoverable
by law;

As to whether or not all revenues
were collected;

As to whether or not all revenues
were disbursed to the proper accounting officer or
officers.

MAR 16 1914

We will verify the receipts and disbursements of the Treasurer in the following manner:

By a comparison with the records of disbursements of the Collector of Taxes to ascertain that all taxes due the City as its proportion have been paid to its Treasurer.

That all school due the custodian of the School Fund have been received by said custodian.

That all miscellaneous revenues from all sources other than taxes and special assessments (collections made by the Collector of Taxes) have been properly placed with the Treasurer.

That each and every disbursement made by the Treasurer during the period under review was made by proper authorization of the Council and disbursed from the proper funds.

That the monies on hand and in bonds were at all times subject to the official checks of the Treasurer. If the contrary, the name of the individual, firm or corporation in whose custody the funds belonging to the City were found to be, and the reason or reasons therefor.

Report:

At the conclusion of the examination and audit, our findings will be presented to the Mayor and Common Council of your City in a comprehensive report with our certification thereto, and at no time during said examination will our findings be disclosed.

Service:

The service will be performed under the specific direction of W. M. Williams, who is an experienced and practical specialist in municipal work.

The senior in charge will be a man of acknowledged reputation in municipal examinations and audits, and who has been in the service of our company as such during the past three years.

The assistant or assistants will also be men of unquestionable ability and reputation.

Fees: We shall perform the service in

MAR 16 1914

accordance with the foregoing specifications and under our report thereon, all for the sum of Five Hundred (\$500) dollars for the year 1914 and for each succeeding year for a period of five (5) years, provided this option is exercised at the beginning of each year by the City Council.

Defalcation:

Should our examination develop the existence of a defalcation or shortage, a confidential report will be made to yourself as representing the City Council, and your instructions for a special investigation shall be considered as aside and apart from this proposal.

It is understood that if such a disclosure is made to you it will be treated in the strictest confidence until such time as any further investigation that may be ordered will be concluded by us and our findings reported to the City Council.

Yours respectfully,
 Universal Audit Company,
 W. M. Williams,
 Secretary and Treasurer.

Offered the following resolution which was adopted upon a call of the roll and present voting age:

Whereas pursuant to the terms and provisions of an Act of the Legislature of the State of New Jersey entitled "An Act to authorize any two or more municipalities in this State to jointly provide, maintain and operate trunk or outlet sewers and sewage disposal plant or plants, or a system of sewerage, and to otherwise act jointly concerning the collection, removal or disposal of sewage and make contracts in relation thereto", approved April 8th, 1910, and the acts amendatory thereof and supplemental

thereto, and all other Acts of the Legislature relating thereto. The Inhabitants of the City of Plainfield, The Borough of North Plainfield, and the Borough of Dunellen, by contract bearing date the 3rd day of November, 1913, have united (1) to jointly provide, maintain and operate a system of conveying or conducting the sewage from said municipalities from the points within said municipalities therein described to a point on the Darling Farm at or near the intersection of Green Brook and Bound Brook, in the Township of Piscataway (now in the Borough of Middlesex) in the County of Middlesex, and to jointly construct, maintain and operate upon the said Darling Farm a plant, works and station with the appliances and appurtenances necessary for the treatment, rendering and disposal of the said sewage, and (2) to construct, maintain and operate the said system of sewerage therein described for the joint benefit of said municipalities in such manner as will render the most efficient service to said municipalities and to each of them; and to that end to keep the said system of sewerage in good repair and effective operation, and to make all necessary alterations, additions and enlargements thereto and therein as the needs of the said municipalities and each of them may from time to time require, and

whereas, there is no assessment for benefits to be made in any of the said contracting municipalities concerning said joint improvement, and in the opinion of this Common Council having charge of the finances of The Inhabitants of the City of Plainfield, it will be necessary to issue bonds of The Inhabitants of the City of Plainfield to an amount not exceeding Three Hundred Thousand Dollars (\$300,000.) to defray its part, share and percentage of all costs, damages and expenses incidental to the requisition of the necessary lands, rights of way and the cost of construction of the said improvement;

Now Therefore, Be It Resolved, that

MAR 16 1914

this Common Council fix and hereby does fix the sum of Three Hundred Thousand Dollars (\$300,000) as the amount of bonds necessary to be issued by the Inhabitants of the City of Plainfield, for the objects and purposes aforesaid, said bonds to be in the denomination of One Thousand Dollars (\$1,000.) payable as follows: In each of the years from 1917 to 1922, both inclusive, bonds of the aggregate par value of Five Thousand Dollars (\$5,000); in each of the years from 1925 to 1942, both inclusive, bonds of the aggregate par value of Five Thousand Dollars (\$5,000); in the year 1943 bonds of the aggregate par value of Fourteen Thousand Dollars (\$14,000); in each of the years from 1944 to 1953, both inclusive, bonds of the par value of Fifteen Thousand Dollars (\$15,000.), and in the year 1954, bonds of the par value of Sixteen Thousand Dollars (\$16,000.) said bonds to bear date April first, 1914, and to be in the form of coupon bonds with the provision that they may be registered at the option of the respective holders thereof. The interest to accrue thereon to be payable at the office of the City Treasurer, in the City of Plainfield, New Jersey, on the first days of October and April in each year. The said bonds shall be executed on behalf of the Inhabitants of the City of Plainfield, by the Mayor, and the seal attached and attested by the City Clerk. The said bonds shall be numbered in the order of their maturity and shall be substantially in the following form:

Honorable Common Council
of the City of Plainfield,
Gentlemen:

I take pleasure in reporting that the Board of Public Utility Commissioners of the State of New Jersey has sustained the claim of this City that the Public Service Electric Company is obligated to continue lighting with electricity, free of charge, the public buildings and offices of the City under and by virtue of the contract of November 28th, 1898, made between the City and The Plainfield Gas & Electric Light Company.

I enclose herewith a copy of the report and order thereon made by said Board under date of April 1st, 1914, and recommend that the same be ordered filed.

Very respectfully,

Chas. A. Reed,

Corporation Counsel.

Results of Tests of Holt Fire Engine.

City: Plainfield, N.J. Date: March 14, 1914.

Conducted by: A.C. Hutson and Chas. A. Whitney.

Type: Combination Pump, Hose and Chemical. Infs. No. 114

Engine: 4 Cylinders, $6\frac{1}{2} \times 8$.

Pump: Roller Rotary, divided for low and high pressure.

Contract Requirements: 600 gallons against 140 pounds pressure, 300 gallons against 250 pounds pressure. Test to be of one hour's duration.

Tested at: Draft from creek.

Sift: 6 feet.

First Test. - Duration: 1 hour.

Sayout of hose and nozzles: Two lines, each 350 feet of $2\frac{1}{2}$ inch hose and $1\frac{1}{8}$ inch tip.Average discharge and pressure: $311 + 305 = 616$ gallons. Engine pressure 144; suction $15" = 7$ pounds; net pressure 151 pounds.

Remarks: Engine ran well; good operation.

Second Test. - Duration: 10 minutes.

Sayout of hose and nozzles: Two 200-foot lines siamesed into $1\frac{1}{2}$ inch tip.Average discharge and pressure: 612 gallons; engine pressure 147; suction $15" = 7$ pounds; net pressure 154 pounds.

Third Test: - Duration: 20 minutes.

Sayout of hose and nozzles: 1,000 feet of $2\frac{1}{2}$ inch hose; $1\frac{1}{8}$ inch tip.Average discharge and pressure: 303 gallons; engine pressure 252 pounds; suction $7" = 3$ pounds; net pressure 255 pounds.

Remarks: Pressure dropped four times to less than 200 pounds, due to clutch

APR 6 1914

on main drive shafting; engine was slowed down and clutch allowed to take hold; this condition was due to feed pipe to radiator having been broken at a few several days previous and thoroughly wetting the pump of the cone clutch. Proper care had not been taken to dry the clutch out before the test. Except for this the machine worked well.

To the President and
Members of the Common Council.

In compliance with resolution of the Common Council adopted Jan. 26, 1914 in reference to building a new City Hall, your Committee beg leave to report as follows:

After a full investigation we find that a city building such as we would require, for many years to come, could be erected, furnished complete and maintained at a cost to the taxpayer of a 2 $\frac{1}{2}$ point raise in the tax rate on our present rates - for a period of 20 years - or in other words at a cost to the taxpayer of twenty-five (25) cents per thousand (1000) on assessed values, for each year for twenty years, at the end of which time the building, etc., would be owned by the city, free of debt. In the judgment of your Committee a Municipal Building is much needed both from a business and economic standpoint, but owing to the many other pressing needs upon our finances at this time, we deem it wise to defer action for the present. We however, desire to recommend to your Honorable Body that this matter be taken up and pushed through as soon as conditions will justify.

Fire Buildings by Chairman Edgar:

Report bill No 33837 correct, being bill held out at the last meeting, and moved same be paid. So ordered upon a call of the roll all voting aye.

Public Affairs by Chairman Claybrook:

Presented report dated April 9th of the Special Committee from the Public Affairs Committee and the Board of Health, (which report was unanimously endorsed at a joint meeting of the Public Affairs Committee and the Board of Health April 17th), respecting the collection and disposal of Garbage, Ashes and Rubbish, which was read, and ordered received and filed.

Offered the following resolution which was adopted:

Resolved, That in accordance with the recommendations made by the Special Committee from the Public Affairs Committee and the Board of Health, the Board of Health be, and is, hereby authorized to secure all the necessary data, including costs, etc., for the proper regulation of the collection of garbage, as outlined in these recommendations. No contracts or agreements to be binding until same are reported to, and confirmed by, the Common Council.

The recommendations of this Special Committee, which have been unanimously endorsed

by the Public Affairs Committee and the Board of Health, are as follows:

That the city be divided into districts or zones, that these be sold to either the highest bidder or that the license fee be made high enough to make some return to the City, and in any case the bidder to be under bond for the proper performance of his contract; that all the wagons be of one type and protected with covers; that the horses shall be passed on by the S.P.C.A., and the drivers and assistants shall wear khaki clothes.

That all house holders shall keep a can for garbage, which must be drained before being put into the can, and a can or barrel for ashes, and a receptacle for rubbish and papers, the latter to be tied into bundles before being put in.

That the City shall purchase three small portable incinerators to be rented to owners of dumps receiving permits for ashes and rubbish, and that the latter shall be immediately burned, and not dumped on the ground to prove unsightly or be blown away.

Finally, as garbage, ash and rubbish collection is a sanitary measure, and in order that complaints may be properly investigated, rules, regulations and ordinances enforced, we recommend that the system be placed under the supervision of the Board of Health. This will necessitate an additional Inspector whose time will largely be devoted to this work.

Adopted by the Common Council April 20, 1914.

Approved by the Mayor --- April 20, 1914.

Madison Ave

Whereas, The Common Council cannot agree with the owners of lands and real estate with the appurtenances necessary to be taken under the provision of the ordinance entitled, "An Ordinance to Widen Madison Avenue from the southeasterly side line of West Front Street to the northwesterly line of the right of way of the Central Railroad Company of New Jersey," (approved December 22nd, 1913, although requisite notice has been given to such owners, and they have been afforded full opportunity to treat with the Common Council, and the Common Council has treated with all such owners as have appeared for that purpose;

Resolved, That we elect to proceed under the amended charter of the City, as amended or modified, as hereinafter specified, and that accordingly, Arthur E. Smith, Albert N. Atterbury, J. Fred Mac Donald, being three judicious and disinterested citizens of the City of Plainfield, N.J., and they are hereby appointed as commissioners to make an estimate and assessment of the damages that any such owner or owners will sustain by the widening of said street under said ordinance, said commissioners also to ascertain the amount of damage that shall be assessed as aforesaid, and if all necessary expenses incident to such widening, and to make a just and equitable assessment thereof among the owners and occupants of the lands, tenements and real estate benefited thereby in proportion to the benefits each shall be deemed to acquire, said assessment to be made pursuant to the amended charter of the City as amended or modified by general statutes of the state, and particularly by the act entitled "An Act respecting assessments in cities," approved April 21st, 1876.

Resolved, that the twenty-fifth day of May, 1914, at 7 o'clock P.M., at the Council Chamber, No. 1 + 9 North Avenue, in the City of Plainfield, N.J., and the same are hereby fixed by the Common Council, as the time and place for said commissioners to meet and proceed with
